Headline: 5 Steps to Renew Your Credit After Bankruptcy 

Have you bought into these common bankruptcy myths?

- You'll have to wait 7-10 years to rebuild your credit after bankruptcy.
- You won't be able to buy a new car or house anytime soon.
- Having a bankruptcy on your credit report will destroy your chances of qualifying for a credit card or loan.

The truth is that you can recover from bankruptcy quickly. It just takes a little inside knowledge of how the credit industry works.

Hello. My name is Don Golden, and I'm a bankruptcy lawyer. But I do more than help my clients dissolve their debt. I also teach them how to rebuild their credit quickly after bankruptcy.

I see it as my duty.

But I wanted to expand my reach. Help people who are not my clients find a fast road to recovery after bankruptcy and rebuild their credit quickly.

It only takes 5 simple steps:

1. Assess your situation
2. Fix what's broken
3. Restore your revolving credit
4. Prove your worthiness
5. Maintain your position

And, within 12-24 months, your credit score will be at or around 720.

A 720 credit score has a ton of benefits. It's like carrying credentials in your pocket that say, "I can handle those payments" — even though you've gone through bankruptcy.

The beauty of our program is that you don't even have to wait a year to start enjoying the perks of good credit.

We'll show you...

...how to qualify for a credit card fast
...how to walk into a car lot and walk out with a car
...how to regain the pride you once had in your credit score

Some students are showing an increase in their credit score within just a few weeks of applying the techniques we teach in our credit restoration course: *Rebuild Your Credit, Rebuild Your Life*.

You're definitely going to want to check it out.

Learn more about *Rebuild Your Credit, Rebuild Your Life*.

Respectfully,

Don Golden

P.S. If you want to rebuild your credit score to 720 in 12-24 months after bankruptcy, be sure to check out my course, *Rebuild Your Credit, Rebuild Your Life*.

Headline: 3 Ways You Can Get A Loan After Bankruptcy 

Many people think it's impossible to get a loan after bankruptcy. But that's simply not true.

There are a few lenders who are itching to loan money to people who have filed bankruptcy in the last year.

Why?

1. They know you can't go bankrupt again for 6-9 years, depending on how you filed.
2. You are less of a credit risk because they know you want to rebuild your credit.
3. Your debt to income ratio is low — because you don't have any unsecured debt left.

But there's a hitch.

You have to know which companies are going to say YES.

If you go to the wrong lender, they are going to deny you credit — and that's going to cause your credit score to plummet — they exact opposite of what you want to happen.

Unfortunately, it works both ways.

If you don't secure a loan — your credit score is not going to get any better either.

So what's the solution?

The answer is in my credit rebuilding course, *Rebuild Your Credit, Rebuild Your Life*.

There I name names.

I reveal the lenders who will give you credit today — regardless of your situation.

Plus, we show you

- Where to look for a new car loan (not BuyHerePayHere)
- How to take out a loan using your kitchen table as collateral
- What you need to do to qualify for unsecured credit
- Why you are guaranteed approval for a secured loan

And you don't have to wait until your credit score hits 720. In fact, these loans are going to be the tools that help you rebuild your credit score to 720 in as little as 12 months.

This way, you can enjoy a little credit, responsibly, while your credit score increases month by month.

One student of *Rebuild Your Credit, Rebuild Your Life* saw a 60 point increase in just a few weeks.

Read his story here.

Respectfully,

Don Golden

P.S. Learn how Tom Rombaugh raised his credit score 60 points in 3 weeks by applying the steps in *Rebuild Your Credit, Rebuild Your Life*.

Headline: What Could You Do With a 720 Credit Score **!?**

What's so magical about a 720 credit score after bankruptcy?

Quite frankly, there's nothing magical about it at all.

Why?

Because you've earned every point of it.

There are no credit fairies that bestow good credit to people after bankruptcy. A good credit score comes because you've taken action, completed the steps, and gone through the process of rebuilding your financial prowess.

With a 720 credit score after bankruptcy, you deserve a pat on the back for a job well done.

Immediately following bankruptcy, most people start with a credit score in the 500 range. If they do nothing to fix it, the score will probably stay right there. Or keep dropping.

In our course, *Rebuild Your Credit, Rebuild Your Life*, we show bankruptcy victims how to raise their credit score to 720 in 12-24 months.

While the score is not bestowed by magic, it does open up some magical doors after bankruptcy.

A 720 credit score provides you the buying power to do just about anything you desire.

- Qualify for elite credit cards
- Get unsecured loans with low rates
- Save money on insurance premiums

Plus, you'll

- See interest rates drop across the board
- Qualify for some of the best car loan rates at recognized dealerships
- Get close to that new home you've been dreaming about

Having a 720 credit score after bankruptcy is like wearing a badge of approval that says, "This consumer has overcome difficulty and proved faithful. Now we can trust them with more."

If you want to restore your credit score to 720 in as little as 12 months, check out our proprietary course, *Rebuild Your Credit, Rebuild Your Life*.

Your credit score will thank you.

Sincerely,

Don Golden

P.S. No credit fairy is going to wave her magic wand and fix your credit report. But you can follow the 5 step plan in *Rebuild Your Credit, Rebuild Your Life* and earn a credit score of 720 in as little as 12 months.

Headline: Re: Your Credit Course Is Waiting 4 You 🕒

Dear [First Name],

I'm a little surprised you haven't taken the steps to rebuild your credit score to 720 in 12-24 months.

You may have been too busy. Or maybe you don't think rebuilding your credit is that important.

I want to make sure that you don't make a mistake that could hurt you in the future.

If you do nothing to resolve your credit problem, your score is likely going to get worse. And the truth is... American consumers need good credit to function in society. Judge Anthony J. Trenga says it like this:

"Credit is the lifeblood of the modern American economy, and for the American consumer, access to credit has become inextricably tied to consumer credit scores as reported by credit reporting agencies."

If you choose not to rebuild your credit score quickly, you may find your self in a difficult situation with nowhere to turn. Life always throws unexpected curveballs at inconvenient times:

- The refrigerator *and* transmission go out in the same day — but there's no savings
- You get into an accident and the insurance doesn't cover the replacement value of your car — so you have to go to a BuyHerePayHere and make ridiculous monthly or weekly payments
- You have to choose between your daughter's wedding or replacing the AC unit in July — and you live in Florida

No one expects these hiccups in life. But with a good credit score, you'll never have to be caught off guard.

With our five step credit rebuilding course, *Rebuild Your Credit, Rebuild Your Life*, we show you the fastest route to secure peace of mind after bankruptcy.

- **Restore your Confidence** to qualify for a low interest car loan in your time of need

- **Rest Secure** with plenty of room on your credit card to cover unexpected expenses
- **Revel in the Pride** of a credit score that can get you approved for almost any loan you desire.

Don't let bankruptcy destroy your financial future. With the right tools, you can enjoy financial freedom yet again.

Rebuild Your Credit, Rebuild Your Life will teach you step by step how to build your credit score so that you can regain the peace of mind you had when your credit was thriving.

Plus, we'll help you stay safe with your credit so that you don't fall into the pitfalls that got you in trouble in the first place.

Now is the time to act — not tomorrow or next week. Restoring your credit score is something you do not want to put off.

Secure your peace of mind: Get *Rebuild Your Credit, Rebuild Your Life* today.

Respectfully,

Don Golden

P.S. What would you do with an extra \$304,276? That's how much money this course can save you by improving your credit score. I show you exactly how here: *Rebuild Your Credit, Rebuild Your Life*. The first step to rebuilding your credit is to get access to the course.
